DETAILED ACTION

1. This Office Action is in response to the Amendment filed August 13, 2004. Claim 23-29 have been added. Claims 1-29 are now pending. In view of the Amendment, claim rejections under second paragraph of 35 USC § 112 and under 35 USC § 103 are moved.

Claim Rejections - 35 USC § 112

2. **The following is a quotation of the second paragraph of 35 U.S.C. 112:**

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 23-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 23, lines 7-8, the recitation "X represents a bond between each adjacent C or spaces each C with a carbon-or heteroatom-containing moiety" cause confusion because X is defined as "nothing,, but may also contain or one or more carbon or heteroatoms, in a ring or not" on lines 24-27 of page 4.

Allowable Subject Matter

4. Claims 1-29 are allowable over the closest references: Kisch (US 4,325,793).

The present invention relates to a catalyst for asymmetrical hydrogen transfer, comprising,

A	transition metal compound	iridium, ruthenium, rhodium, or cobalt
B	nitrogen-containing enantiomerically enriched ligand	containing sulphur in the form of a thioether or a sulfoxide and bound to the nitrogen via two or more carbon atoms

(summary of claim 1)

Kisch discloses a catalyst to split water to provide hydrogen under the irradiation with actinic light, comprising a specific metal complex. Kisch further discloses that the metal of the complex is preferably "...W...Re...Co, Ni...Zn...." (col. 1, lines 54-56). However, Kisch does not teach or fairly suggest a catalyst comprising a nitrogen and sulphur-containing **enantiomerically enriched** ligand.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
